CONGRESS.

Washington, Wednesday-P. M. In the Senate, to-day, Mr. Hunter offer ed a resolution, asking of the Scoretary of State if citizens of of the United States had been indemnified by Great Britain for slaves lost, as provided for by the trenty of 1783

A petition e presented by Mr. Seward, for prohibiting slavery and the slave tiddo in the Territories, was receivedyear 19; nays 17. Mr. Whitcomb presouted a petition against the extension of slavery and the admission of more slave States : also received.

Mr. Die inson reported a bill for the payment of interest on bounty land script. In the House, the Committee on Territories reported a bill in favor of further appropriations for public lands in Minneson nie! Oregon.

Mr. Freedley reported a joint resolution giving construction to the act of 22d Febmary, 1849, granting five years and a half to pay widows and orphans of soldiers decented in Mexico. The resolution is under discussion.

In the Senate, Mr. Cooper spoke on the subject of referring the Message of the President in relation to the coasting trade, eft. He considered Mr. Bulwer's corres pondence impertinent, and that it merital eevere rebuke.

Mr. Badger thought the conduct of the Dritish Minister irrogular, and that it demanded in answer.

Mr. King spake much in the same strain with Mr. Cooper. He considered the con duct of Mr. Bulwer unwarranted.

Mr. Clay thought there was no impro priety in Br. Bulwer's conduct.

Mr. Cass concurred in the sentiments of Mr. Clay, and deeply repressed Mr. Coop er's censure.

On metion of Mr. Cooper, the Message was referred to Committee on Commerce.

The consideration of Mr. Clay's Compromise Resolutions were resumed. Mr. Walker being or titled to the floor, he addressed the Senate chiefly in reference to an amendment proviously proposed by him Mr. Walker will conclude his speech toinorio#.

A Messago was received from the Presi dent giving reasons for the removal of postmastere, &c., soon after which the Senate adjourned.

In the House, Mr. Freedly's resolution, after some discussion, was re-committed with sundry proposed amundments.

The consideration of the California Mesrage was resumed in Committee of the Whole, Mr. Boyd in the chair.

Mr. Featherstone spoke against the admission of California.

Mr. Stanley followed, and ably showed that the line and cry about Northern aggression was wholly groundless, designed for party purposes. The South hal no cause of complaint against the North. He advocated the admission of California withont Siavery-denounced disunionists-had no fear of their threats, and did not fear may danger of a dissolution of the Union. North Carolina (he cair) never would go out of the Union, Mr. Stanly was frequently applanded by Northern mordura

Mr. Stanton, of Kentucky, obtained the fleor, when the Committee rose, and the House adjourned.

From the Pittsburg Gazette, of March 2. VIOLERT GALE .- The month of March was ushered in, might before last, by a terrible storm of thunder and lightning, accompanied by a heavy wind, which increased toward morning to a tornado, doing a large smount of damage to property in the two cities and their vicinity. So far as we have learned, Alleghony has suffered the most severely from its devastations,-

The following instances have come under nur notice.

The Beaver street Methodi-t church was very much shartered, the gable and being blown down and about one half of the roof tern away. The interior of the building is also considerably injured by the falling of the bricks and timber. The damage is estimated at from \$1000 to \$1200,

The roof of Dr. Swift's new church, or Beaver street, Allegheny, was considerably injured, part of the slating being carried away. It is supposed that \$50 or \$60 will repair the damage.

A frame church in Manchester, belonging, we believe, to the Latheran denomination, was blown down to the ground.

A new frame house being erected by Mr Pierce, on Cassat's plan of lots, in the reserved tract above the 3rd ward, in A8egheny, was blown catingly of the hill and feelings, of every kind, are strictly and upon which it stood, into a stone quarry be-

Several other houses in Allegbeny have also lost their gable ends, parts of their roofs, &c., among which we have heard of a brick house on Plenning street, in the 2d Ward, belonging to Mr. Benson, and a building known as Stranb's browery, also in the 31 Ward, Several old trees on the bank of the Alloghe, you're, which have ex sted beyon! the memory of the present generation, were torn up by the roots,

On the Pittsburg side of the river the damage has not been so extensive to far as we are imformed.

Busy .- A clergyman in Albany has preached 109 scrimers, deliver d 9 leetures, marries 6th cample, britised 15 children, and made 250 visits to the sick, within the past year.

(re-That the present is an intuncely in teresting and critical period at Washington, no one can question; and that we are now passing through a political climax of the greatest and most vital importance, no wellinformed man will deny. Everything is centered at the Capitol; every interest is strongly and fully represented, yet the ailvocate of each are pausing, for some one to make a decided movo. But no one can tell the result; no man can say what a day may develope. An unguarded remark in dobate, in either House, may enkindle a flame which will prove most disastrons to the country, and most disgracuful to our national character. There is certainly a highly excited state of feeling among persons from the different sections of the country, and nothing but the greatest prodence can maintain that tranquility, at least ne far as nutward appearances are editeemed, which is so desirable. The South is firm and envielding ; they seem to have planted themselves, as on a dertier resort, and there they are awaiting the coming of that storm which so many have foreteld. What its result may be, we do not pretend to say, neither is it in the power of man to conceive. We trust, however, that there is sufficient of patriotism and devoted attachment to our glurious. Union, to allay the threatened fury, and to preserve the Confederation uninjuted. We have calmly watched the course of events and the violent workings of men's toinds for the last ten days at Washington; we have moved among them, conversed with them, and heard all that has been said and done, and we are yet firm in the opinion that it is not possible for a fatal blow to be struck to the Union, although there may be some trying scenes, and the public mind may yet be more violently convulsed. It is true that wo at the North and East, that is, people generally, are not fully aware of the state of things in Washington, and the prevailing feeling at the South. When the hour of trial shall finally come, we trust that there will be good men enough found who will stand from in the common cause, hold in defence of the Union and all that is glorious in it, from all rections of the conntry, and thus pass us safely through this important era in our history. Men who will be true to themselves, to their country and to their God; who will dare do right, regardless of other considerations, and fearless of all sectional projudices. Let the true men of the country, who are sminently Americans in every some of the word, each yield a little in an honorable Compromise, and all will be well. It is only a known and a tyrant who stands unmoved and immoveable in such a crisis, and refuses to yield a jut of his preferences.-Good men, true patriots and honces citizens invariably regard it as the highest point of honor, and the surest evidence of greatness, to meet their opponents in the spirit of Compromise, on an honorable platform, and there adjust the great questions which have long divided them.

We hesitate not buildly to say that such men as Giddings, Rout and others in Congress, and their associates in other parts of the country, have a fearful weight of resn their shouldots; and should the result of the present storm prove dienstrous to the country, in any degree, their m. asure of accountability will be more fearful there as honest man could quintly ondure. We have been been and educated at the North, and all our sympathics, thoughts thoroughly with the North; yet we are not so infatuated by our zeal to this section of the country as to suppose and assert that the North is all right, and the South all wrong. We abountaite the institution of Slavery, and if it was in our power peaceably and quietly to abolish it, we would most giadly do za. But Slavery exists, and it has the sauction of bemon laws, in certain portions of the usualty, and it cannot be swept away in an instant. Its abolition must be the work of years, and it must be effected by vastly different mon than those who have thus far attempted it; and it must be accomplished by entirely different means from those which have hitherto been 19sorted to.

We desire to see oil paired upon the ! timabled waters, and a holier and hatter on Monday. Ten thousand persons spirit breathed through the lead. Our Independence was achieved at too dear a were present.

price, and our Confederacy was formed at [two solems a period, to be feetishly trifled with by those who cannot appreciate the value of the one, or treasure the investimable blessings of the other. We indulge in no dark foretodings of the future; the manthe of gloom is spread above us, but our trust is in the same merciful and just God who sheltered our fathers in the hour of their danger and their trial, and we know that He will not abandon a people whom He loves. His afflictions may try us for a season, but if we make a proper application of them, they will ultimate for our welfare, and teach us that, on all occasions, our reliance must be placed on the only arm that is sufficiently putent to sustain us.

Washington, March 3.

There is nothing particularly new in the city now, withough I could send a couple of columns of important rumors ; but I despice such things too much to indulge in them, particularly at such a time as this, when there are real troubles enough, which actually exist, without the necessity for unprincipled men to resort to the manufactory of their own fertile imaginations for delusivo schemes, which it is to be hoped can never have an embodied form.

It has been thought, during the lest week, that to-morrow, Monday, would be an exciting day in Congress; but Mr. Doty's resolution in regard to Slavery in thu new Territories, which caused the storm two weeks ago, and which it was anticipated would be the means of a renewal of it in-morrow, is to be withdrawn in the norming, and consequently there will probably he a comparative calm. The crowd, however, will be great, and it is quite likely that there will be some excitement, as the fever is up, and it will be necessary to have, at least, a slight manifestation of it, according to expectation.

Mr. Wobster will reake his great speech of the sevalor, in the Senate, on Wednesday, and I anticipate something powerful and grand. The Senate will be crowded to its atmost capacity, but hundreds, who will desire to liear it, will be a nable to gain admission.

Mr. Stephens, of Georgia, who is one of the strong men of the House, and a truly brilliant star, will make one of his great efforts snow. All have heard of his reputation, and all politicians know his power.-He is the last man who would be selected by a stranger, visiting the House, as Alexander H. Stovens. He is about my height, although much more sleader, and weight only ninely pounds! There is nothing very attractive in his personal appearance excepthis eye, which is brilliant and mark ed. His head is ordinary looking, his face very pale and thin, and his legs are enermonsly long, which giv a him a very awk ward appearance. He looks exceedingly like a consumptive man, and would never attract the attention of common observers in a crowd. Yet he is an intellectual giant. I have seen much or him many,

Mr. Toomhs, also of Georgia, is another of the mars of the House ; he is about 40 years old, stout and healthy looking, full face, long black hair, large dark oyes, with a decidedly marked face. He is a man of strong mind, nervous temperament, and quick nation. He speaks rapidly yet plonsantly, has a powerful voice, and uses much action in debate. He is an able lawyer, and is said to be the best sump speaker in the country; and I can readily conceive this to be true.

The Vice President, Mr. Fillmore, presides most gracefully in the Senate, and is n popular officer. He is a man of great ability, and in private life is one of the most agreeable and estimable men in the country. His manners are exceedingly dignified and pleasant, and entirely free from stiffness. I trust yet to see him in the White House. He is a genuine Whig, an able statesman and a polished gentle-

I might go on and give sketches of other distinguished men in Washington, but I do not know as they would interest my readers. I intend yet to see the President, and will then give my impressions of him and his appearance.

THE GAINES! CASE .- The Court of New Orleans decided in this case :—"First, that there was no proof of marriage of Zulime Carriora with Daniel Clark. Second, that the marriage (if ever celebrated) was secret, and under the Spanish law, did not create any rights for the wife or her offspring. Third, that the complainant was horn in 1801, and became of ago in 1925, and the prescription of ten years was mature before the institution of her suit." The case goes to the Supreme Court.

DEATH BY LIGHTNING .- On the 21st of the house of James Aspinwall, of War rounty, Geo., was stuck by hightrang. At the time of the melanchaly occuronce there were present in the house, busides Mr. Aspinwall and his wife, two other men. Aspinwall was instantly killedhis wife badly wounded, and the two others present stunned for some time.

Ar-Steamer Bay State, Captain William Brown, than whom a more capable or gentlemsaly commander does not navigate Long Island Sound, took her place in the line between this port and New York, leaving here last evening. The Bay State has been provided with two new and atquich boilers, her furniture and fixtures have been furnished and repaired and made as good as new, and the boat has been thoroughly overhauted and repainted. From personal inspection, we gan affest that this magnificent floating palace nover appeared in better condition than row, since sho was first put afloat. She made a trial trip in our hay and river yesterday, when every thing was found to be in " apple pla urder." A prosperous season to her and her enterprising owners and officers. PRIVATE COINAGE.-According to Messrs Eckford and Dubois, the Mormon and California gold coins are, as might be expected, of less value than the gold coins of the United States of similar, denominations. Of the Mormon coins, the \$20 piece are worth only from \$16 90 to \$17 5c, the \$10 from \$8.50 to \$8.70; the \$5, about \$4 30; the \$2 1-2, about \$2 25. The California \$5 piedes range in from \$2 82 up to as high as \$4 96.

AN ASTROLOGER CONVICTED.-On Tuesday, at Philadelphia, C. W. Rolinek was convicted of obtaining money under false pretences, in receiving from Miss Mahony \$3, on pretence of unveiling, by virtue of his talent in astrology, the whereabout of some articles that had been stolen from herwhich he did not succeed in doing.

" Are you not alarmed at the opproach of the king of terrors?" said the minister to the sick man.

"Ob, no I have been living six and thirty years with the queen of terrors the king cannot be much worse!"

85-The Union is safe and still exists, and will, when the men who denounce and seek to lessen its value, are stead and gone. But Ribert's Aut Union will coase to exist after this week, as the number of subscriptions are very small, and daily getting gloriously less. Therefore, we say to all those who have not secured a chance, to call at 171 Timess street, and do so immediately.

As a the great efficace of Dr. Cortext's concentrated. Byrop of
Mesers, E. Brouley & Co.—
Gentlement, —I was be neglet quite how
in the sammer of 1817, with the Dysentery.
I sught a physician several times and was
dangeroosty sich, on much so as to believe
I must die. I gree weirse daily, and was so
reduced and week that I requently finited
away. For many days I co splind with the
directions of my physicians. Burobtaining
no rehet, and hearing of (Parisar's Snaker
Syrup of Sarsaparilla, I was induced to
make trial offit.

My lathe boy about five years of age was
also very sick of the same disease at the
same time. The hirst few dose I took re
vived me speedily. The pains were specifby allayed and the disease was so early
checked that I was enabled to attend work
in the course of a week. My little boy was
also soon criter, and only part of a bottle was
taken by both of as. Alsent from home
same time offer, I returned from Montreal,
in 1818, with the same disease, which had
been increasing on me many days. I resorted again to the Shaker Syrup of Sarsaparilla, and took only a few doses, when
again I was early and fully restored to health
I know this Syrup crited me, and I recommend to all who may suffer as I have.

As the Spring screening generic years provided by using D. Carbett's Model's Componed Concentrated SyruP OF SARSAPARIJELA.

This medicine has proved to be most valuable in the following diseases; Chronic Inflamation, Jaundice, Weekness of the digestion organs, Dyagegsia or Indigestion and Sarriess of the stemach. Rheumatism and Sal Rheum, Functional diseases of the diver, Chronic Emplions of the Skin, and all Seminations of the Sin, and the Sarriessing dis-order, the fischma. It has proved highly heneficial in some cases of Dropsy, Dysentory, Diarriesa.

It will be found by observation that many of the above disorders, and also that fand disease Phillis Pulmonalis, or Consumption, generally originate in a scrotishus state of the system; and to the such diseases, we must remove the primary cause. It will likewise be found that diseases of the Liver often originate with persons of a scrolinum labit, and are called liver complaints; but it is a well established fact that before such liver complaints can be personnently cured this serollulous distlass must be removed.

cured this serolithous distliers must be remeyed.

That this is the effect of this Syrup, hundreds of the most computent judges, who have seen and left the virine of its sanative power can bear wilness. It is a laxative, dimentionine, and greatly alterative, and is prepared from the best and most virtuous alteratives of the vegetable kingdom, without the addition of any mineral substance whamver. It is a perfectly safe medicine, and may be taken at any time without regard to weather or exercise.
